PROPOSED CHANGES

A complete version of the Proposed Order has been filed into Docket R-32587

Staff recommends that the following rules and regulations be adopted:

All Common and Contract Carriers shall comply with the requirements of this General Order and General Order dated November 2, 1987 to the extent that the provisions of that General Order are not affected herein. All Common and Contract Carriers are no longer required to satisfy the requirements of General Order dated March 18, 1994, in any sale, transfer, or any transaction that results in a change in the control or operation of a Common or Contract Carrier.

- I. Any sale and/or transfer by a Common or Contract Carrier that holds a Certificate or Permit of Public Convenience and Necessity issued by the Commission shall not be required to seek Commission approval if the sale and/or transfer is less than twenty-five percent (25%) of the assets of the Carrier and the sale and/or transfer does not include the Certificate or Permit of Public Convenience and Necessity.
- II. Commission Staff shall review sales and/or transfers by Common and Contract Carriers that do not hold a Certificate or Permit of Public Convenience and Necessity issued by the Commission. The Carriers subject to this Section shall not be required to seek Commission approval if the sale and/or transfer is less than twenty-five percent (25%) of the assets of the Carrier.
- III. In any sale and/or transfer by a Common or Contract Carrier that holds a Certificate or Permit of Public Convenience and Necessity that requires Commission approval, the Administrative Law Judge or Hearing Officer shall consider the ten (10) public interest criteria attached to this General Order in Attachment "A" in addition to analyzing the fitness of the purchasing Carrier. In the event that a Commissioner requests that the transaction be reviewed at a Business and Executive Session as set forth in Section VII, the ten (10) public interest criteria and fitness requirements may be considered by the Commission at that time.

- IV. It is hereby authorized by the Commission that in the event that a Common or Contract Carrier that holds a Certificate or Permit of Public Convenience and Necessity does not seek the prior approval of the Commission when completing a sale and/or transfer, the Carrier that continues operations after the transaction may provide evidence at a hearing, by testimony or otherwise, of “good faith” in failing to seek prior approval from the Commission.
- V. At an evidentiary hearing on the sale and/or transfer, Commission Staff may support the assertion of “good faith” in failing to seek the prior approval of the Commission. In the event that the Administrative Law Judge or Hearing Examiner finds that the Carrier’s failure to seek the prior approval of the Commission was done in “good faith”, the Administrative Law Judge or Hearing Examiner, shall find consistent with this General Order that the Carrier is excused from seeking the prior approval of the Commission as to the sale and/or transfer.
- VI. Any and all requirements contained in La. R.S. 45:166 (B) shall be satisfied by a Carrier proving by a preponderance of the evidence at an evidentiary hearing that all rights under the Certificate or Permit of Public Convenience and Necessity were substantially operated for a period of six (6) months prior to the date of the sale and/or transfer, or that the failure to so operate was due to bankruptcy, receivership, or other legal proceedings, or to other causes beyond the Carrier’s control.
- A. Nothing contained herein shall affect the ability of the Carrier to prove “good faith” in failing to seek the prior approval of the Commission as detailed in Sections IV and V.
- B. A voluntary suspension does not alleviate the Carrier from complying with La. R.S. 45:166, however a Carrier under voluntary suspension for up to twelve (12) months, may provide by sworn evidence the reason(s) why the Carrier was not able to substantially operate the Certificate for six (6) months prior to the sale and/or transfer as required by La. R.S. 45:166. If the Carrier provides sufficient evidence at the hearing to comply with one of the exceptions contained within La. R.S. 45:166 (B), the sale and/or transfer of a Certificate or Permit of Public Convenience and Necessity under voluntary suspension shall be valid.
- VII. In the event that a Common or Contract Carrier that holds a Certificate or Permit of Public Convenience and Necessity is able to meet the requirements set forth in this General Order, the Administrative Law Judge or Hearing Examiner shall approve the sale and/or transfer as requested by the Applicant and issue an Order to that effect. An Order from the Administrative Law Judge or Hearing Officer approving the sale or transfer shall be in full force and effect unless a Commissioner requests that the docket be reviewed at a Business and Executive Session and subject to a vote of the Commission.

If adopted this General Order is proposed to be effective immediately and the provisions contained herein will be applicable to all applications currently pending before the Commission.
